Experience

Senior Frontend Developer   **Tehran Internet (780)**   *Tehran/Iran*   **Nov 2021 - Present**

- Contributed to the successful completion of a complete redesign of an existing web application, transitioning it to modern technologies, including **React**, **TypeScript**, and **Next.js**.
- Implemented project linters (**prettier**, **commitlint**, **eslint**, **husky**) to improve code consistency and reduce conflicts among team members.
- Enforced OpenAPI typescript to convert schemas to TypeScript types, reducing server response type costs.
- Boosted team productivity and collaboration by regularly sharing knowledge on emerging tech with 15+ developers.
- Increased unit/integration test coverage using **Jest** & **React-testing-library**.
- Improved web vitals (LCP, FID, CLS) using **Lighthouse** & **CRUX API**, resulting in 50% faster page loads, 40% fewer bounces, and higher engagement/satisfaction.

Tech: **Javascript, React, Typescript, Next.js, React-query, Framer motion, React-hook-form, Next-PWA, Firebase**

Frontend Developer (remote)   **RealPars**   *Amsterdam/Netherland* **Apr 2020 - Nov 2021**

- Reduced build size by code splitting and replacing legacy **redux-thunk** with **react-query** for server state.
- Launched dashboard by migrating 100% legacy components to new ones using React hooks.
- Improved project structure by configuring **MonoRepo** and reducing dependencies by 40%.
- Collaborated with back-end developers to identify and remove user impediments to site interaction.
- Developed UI component documentation with **Storybook**, established development guidelines, and enhanced efficiency and consistency in the UI component development process.

Tech: **Javascript, React, Next.js, Lerna, Typescript, StoryBook, Redux toolkit, AntDesign, Emotion | Socket.io**

Frontend Developer   [Liateam](#)   *Tehran/Iran*   **Nov 2018 - Apr 2020**

- Built an E-commerce site using React and Redux, achieving 95% unit test code coverage for optimal user experience.
- Streamlined website performance up to 60% by analyzing designs and refining quick loading and user accessibility.
- Coded logistics and warehouse dashboard using React, Typescript, and [Google Charts](#) for a rich visual summary of daily user purchase patterns.
- Gained daily traffic from 10k to 40k by redesigning existing websites to improve user experience.
